HALTER WORKOUT (Current at 28.06.2021)

Simply, the format is to leave the class line up, present to judge. Walk (Paso) horse to A. Proceed at walk A--B. At "B" lunge horse a maximum of three circles, and on the 3rd circle or before, when your horse is balanced commence trotting (trote) the straight line B---C. The handler should commence running when the horse is at the far point down the line B---C. The handler may choose not to circle at B, but simply to trot freely between B---C on the long lead.

The critical thing about the workout is to allow the horse to show his/her gait freely without the handler unintentionally interfering (e.g. restricting or turning the head of the animal) thus preventing the animal in showing its true movement.
